/HOME LIFTS FOR EVERY ONE

We want your home to be as accessible as possible without the equipment looking too clinical or cold. The UltiLift is designed to blend seamlessly into any interior. Our lift is ultra-safe, eco-friendly, and available in many options to suit any taste or budget.

Explore our **Essential**, **Creative**, and **Premium** collections to see which model would suit your needs the best.

When you add an **UltiLift** to your home, you'll be able to make the most of every corner of your living space, plus you'll increase the value of your property.

Our team of experts is here to advise you every step of the way. We're looking forward to hearing from you!

/8 REASONS TO CHOOSE THE ULTILIFT

When you install an UltiLift, you make it easy to move between floors, welcome visitors, transport heavy loads, and above all stay in your home longer.

/OPTIONS FOR EVERY BUDGET

The UltiLift is competitively priced because of its underlying simplicity.

You can treat yourself to one for the price of small city car! Of course, lift size, finishes, and the number of levels and landing doors will all affect the price.

/QUIET & ECONOMICAL

All you need to run your UltiLift is a normal electrical outlet. Your lift uses less energy than an iron and is very quiet when in use.

/SIMPLE TECHNOLOGY

The UltiLift is simple and reliable thanks to its direct hydraulic drive technology. The hydraulic cylinder works mechanically, using simple oil pressure to raise and lower the lift. All it takes are a few litres of vegetable oil, and you don't even have to change it. The UltiLift has no cable, chain, suspension system, or electrical battery (except for the emergency lighting). You can rest assured you'll always be safe and taken care of.

/COMPACT DESIGN

We only need 10cm of space to install the hydraulic cylinder between two guide rails on a load-bearing wall. The rest of the lift shaft can be constructed with partition walls about 7cm thick. The control box is installed next to the shaft. For a car measuring 83cm across, the interior of the shaft only needs to be 105cm wide. Your UltiLift takes up the same floor space as a large shower!

/SIMPLE INSTALLATION

The UltiLift is easy to install and integrate into your space. The shaft is enclosed with plasterboard, much like a bathroom or separate dressing room. The only potentially significant work required is cutting the hole, if the floor is concrete. Installation is faster if you have wood floors. After the prep work, plan two days for installation of a two-level lift. (Plan four weeks for manufacture and delivery.)

/DESIGNED FOR SAFETY

In the event of a power outage, you can safely let yourself out of the UltiLift without calling the emergency services. There is a lever you can operate manually from inside the cabin to gently lower the lift to the lower level using its own weight. An emergency key located in the cabin lets you unlock the lift landing door from the inside. And you're out! The car can also be lowered from the outside. Emergency lighting and a telephone wired to your existing landline are also available

/STYLE & COMFORT

The UltiLift fits into your home with style. We've paid rigorous attention to every detail of the design, from the all-aluminium guide rails to the ultra-compact, whisper-soft control box and the closed cabin finished with stylish wood or glass panels. Whether your interior is contemporary, classic, cosy, or elegant, we have the lift for you. You can even customise your lift!

/AN EXCEPTIONAL WARRANTY

Any UltiLift comes with a two-year parts and labour warranty to give you peace of mind for even longer!

/STANDARD FEATURES

These features are part of every UltiLift package.

/LED LIGHTS

Two LED spotlights are inset into the ceiling. Get full visibility, day and night, and maximise the ceiling height.

/VINYL FLOORING

Available in a range of colours and finishes. UltiLift vinyl flooring is durable, easy clean, and non-slip.

/SAFETY SYSTEM

The extensive safety system includes an emergency stop button, a landline phone, backup lighting, and a mechanical lowering system. Get full peace of mind if an emergency does arise.

The mechanical safety system lets you lower the car yourself in the event of a power outage or blockage.

/CUSTOMISING YOUR ULTILIFT

Choose your size and personalise the design.

1 / SIZE

The UltiLift is available in five standard sizes:

Small
Medium
Large
X-Large
XX-Large

Full dimensions are available in the technical section.

They can also be custom designed and built to fit your space.

2 / DESIGN

You can personalise the four main parts of the UltiLift design:

Step 1: Door Glass & Frame Colour

Step 2: Flooring

Step 3: Command Colour

Step 4: Interior Cabin Design

Choose from the **Essential**,
Creative or **Premium**
collections.

/THE ESSENTIAL COLLECTION

AFFORDABLE LUXURY

The Essential collection is our entry-level range designed to meet the client's key needs. By focusing on just the essentials, these lifts offer the best value for money

CUSTOMISE EACH PART WITH OUR COLOUR OPTIONS:

/DOORS

ALUMINIUM ONLY

OPALESCENT GLASS ONLY

/FLOORS

GREY ONLY

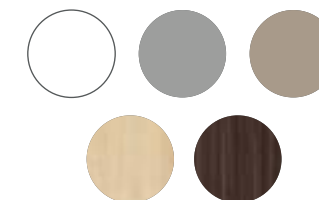

/COMMAND COLOUR

LIGHT GREY ONLY

/CABIN COLOURS

WHITE / GREY / TAUPE / MAPLE / EXOTIC

All UltiLift walls are finished with laminate or opalescent glass panels and a full-length silver mirror.

/THE CREATIVE COLLECTION

HOME LIFTS THAT ENHANCE YOUR DECOR

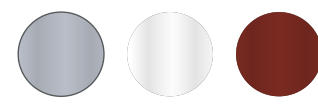

The Creative range combines convenience, space saving, and endless customisation for a stylish addition to your home. These lifts suit city and country spaces alike with a variety of finishes to choose from.

CUSTOMISE EACH PART WITH OUR COLOUR OPTIONS:

/DOORS

PACK ONE / PRINTS

See all options on pages 18-25

/THE CREATIVE COLLECTION

WARM WOOD

TROPICAL / CHENE

This beautiful laminate interior gives a refined yet welcoming look. Ideal for anyone wanting to complement a rustic room or add a cosy touch to a modern design. Warm wood is a simple way to achieve a high-end finish.

/THE CREATIVE COLLECTION

PACK OPALE

WHITE / TRANSPARENT / BLACK

Opalescent glass gives a sleek and modern finish. Not only does it look great, but it's also super-easy-clean. Pack opale is popular in contemporary designs to add a little bit of luxury.

/THE CREATIVE COLLECTION

PACK ONE

WHITE

This one's for the minimalists. The premium white laminate creates a clean and simple look. Pair with black command panel and flooring for a stunning contrast.

/THE CREATIVE COLLECTION

PRINTS

JUNGLE / SCANDI / MOON / BEACH
FLOWER / FOREST / PERSONALISED

Looking for something bolder? Go for a print!
Add a splash of colour, incorporate nature, or add a
personalised photo of your favourite memory or
place. Ideal for those who want something
completely unique.

/THE PREMIUM COLLECTION

COMPLETELY BESPOKE UTILIFTS

The UltiLift is designed for clients who want a completely unique system. The UltiLift Premium range adds an extra bit of convenience and sophistication to a villa or penthouse apartment. Check out the design gallery:

/THE PREMIUM COLLECTION

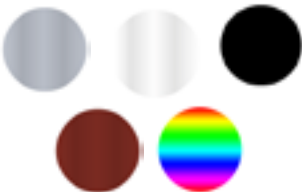

The UltiLift offers an extraordinary array of decorative options. We have everything you need to make your home lift one of a kind.

Doors are available in automatic or manual options, with partial or full windows, clear or smoked glass, mirrored or with a decorative panel. The UltiLift interior features exclusive styles with noble woods, inlays, and other precious materials. The lift floor can be fitted with fine Portuguese marble in black or white to complement your space.

CUSTOMISE EACH PART WITH OUR COLOUR OPTIONS:

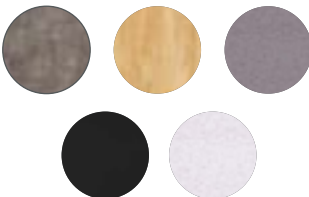

/DOORS

ALUMINIUM / WHITE / OCHRE
RED / BLACK / CUSTOM

/FLOORS

CONCRETE / OAK / GREY
BLACK / WHITE

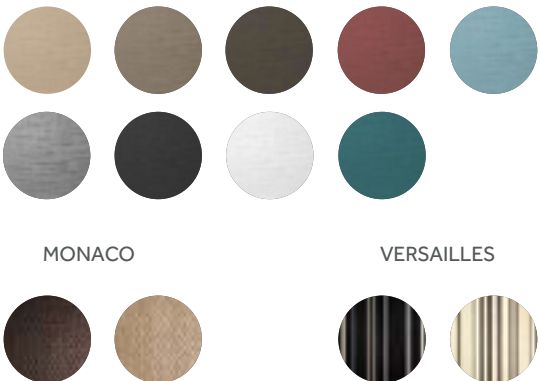

/COMMAND

BLACK / WHITE

/INTERIOR

CREAM / CLAY / COCOA / RED / AZURE
GREY / BLACK / WHITE / TURQUOISE

/DOOR GLASS

Mirrored glass Opalescent glass Smoked glass Transparent glass

/THE PREMIUM COLLECTION

MONACO

CHOCOLATE / SAND

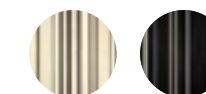

Carved wood gives warmth and texture to your interior. Paired with the luxury marble flooring, you can create a boutique hotel feel in your own home!

/THE PREMIUM COLLECTION

VERSAILLES

ECRU / BLACK

Stripes are always a popular design choice. The Versailles collection is elegant but impactful. Contrasting inlays of exotic wood add interest to any room – the perfect finishing touch to your home.

TECHNICAL FEATURES

The UltiLift is composed of guide rails, a hydraulic cylinder, a control box (which contains the system control panel and the hydraulic drive system) and a passenger car.

The lift must be installed in an enclosed shaft. The control box is positioned within one metre of the shaft. The guides are installed on a load-bearing wall. Pressure from the oil in the hydraulic cylinder moves the car along the guides inside the shaft. The specially designed automated control system ensures a smooth ride with our 'soft start and stop' system.

TECHNICAL SPECIFICATIONS

- 1-4 floors
- Maximum travel: 8.5m
- Rated load: 250kg/m², up to 4 passengers
- Motor: 230V-50Hz-1.5kW
- Plugs into standard 230V (16A) wall socket - 2poles + earth. Device requires dedicated lineprotected by a 30mA residual current circuitbreaker, SI or A-SI type (required by law)
- Single, straight through, and 90° exit options
- Automatic call button on landing
- In-car controls; hold-down buttons on Essential models or one-touch buttons on Creative range.

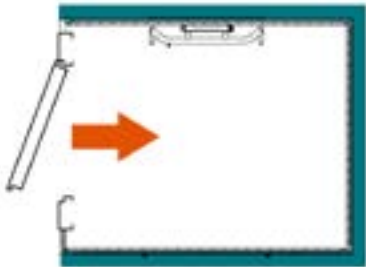

/SLOPED CEILINGS

If the top floor has a sloped ceiling, the roof of the UltiLift can be partially slanted. If the ceiling is too low, we can reduce the lift height (min. 1.80m).

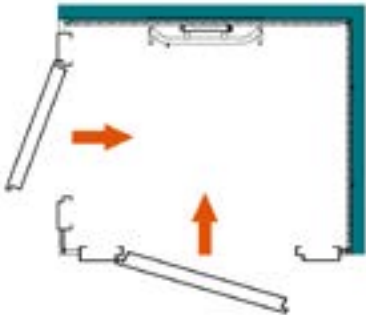

/DOOR CONFIGURATIONS

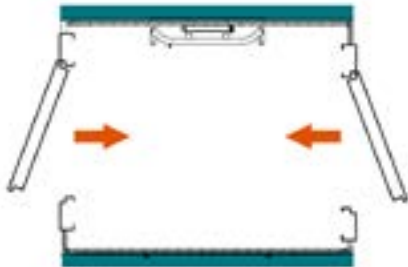

If the top floor has a sloped ceiling, the roof of the UltiLift can be partially slanted. If the ceiling is too low, we can reduce the lift height (min. 1.80m).

SINGLE DOOR
Enter and exit from the same side

90° EXIT
Turn left or right to exit

STRAIGHT THROUGH
Enter and exit from opposite sides

/SIZE OPTIONS

The facing diagram shows a typical two-floor setup: the guides are installed on a loadbearing wall, and additional walls (which can be made from a variety of materials including plasterboard) form a shaft around the car.

STANDARD LIFT SIZES

	Doors (mm)	Cabin Dimensions (mm)		Shaft Dimensions (mm)	
	Width	Width	Depth	Width	Depth
Small (S)	700	710	840	980	1000
Medium (M)	700	710	1090	980	1250
Large (L)	800	810	1290	1080	1450
XL	900	910	1390	1180	1550
XXL	900	1200	1400	1420	1550

/GLASS LIFTS

The UltiLift is traditionally installed in a masonry shaft. However, we also offer the option of installation in a steel frame with clear or opalescent glass windows. Multiple colours available.
